

V Cone Tumble Blender Specifications and Dimensions

STANDARD FEATURES:

- Suitable for bulk densities up to 150 lb/cu.ft.
- Atmospheric design V cone vessel
- Stainless steel type 316 wetted parts
- 150-grit interior finish, 80-grit exterior finish
- Manually-operated butterfly discharge valve
- Hinged charging port
- Carbon steel safety railing with limit switches and A-frame support structure, painted with durable two-part epoxy coating
- TEFC motor designed for 230/460 volt, 3 phase, 60 Hz

AVAILABLE OPTIONS:

- Higher horsepower for handling higher bulk densities
- Full vacuum design
- Mirror finish
- All stainless steel construction
- Intensifier bar
- Explosion-proof or special voltage/frequency motor
- Jacketed vessel for heating and/or cooling
- Insulation and sheathing
- Control panel, explosion-proof operator station or PLC recipe controls
